

NOTICE TO CITIZENS OF REILLY TOWNSHIP

With the Spring season upon us, the Township Supervisors have been receiving reports there are properties that have been long-term storing non-typical items outside on the grounds such as house furniture, construction materials, debris and vehicles that are not licensed/registered/inspected. As the Summer approaches, there will also be an increase in the growth of grass and weeds, which must not be permitted to become too high.

There are existing ordinances on the topic of Exterior Property Maintenance which the Supervisors are being asked by citizens to enforce more rigidly.

Before the unfortunate situation of writing citations occurs, the Supervisors are asking the residents to voluntarily look at your respective properties to be sure there are no problems as starting June 1, 2022 the Township will be keeping a list of offending property owners that likely will be receiving citations throughout the year and beyond if necessary.

Thanks for your efforts to keep our Township looking clean!

Board of Supervisors of Reilly Township
